

Pre-Sale Step by Step

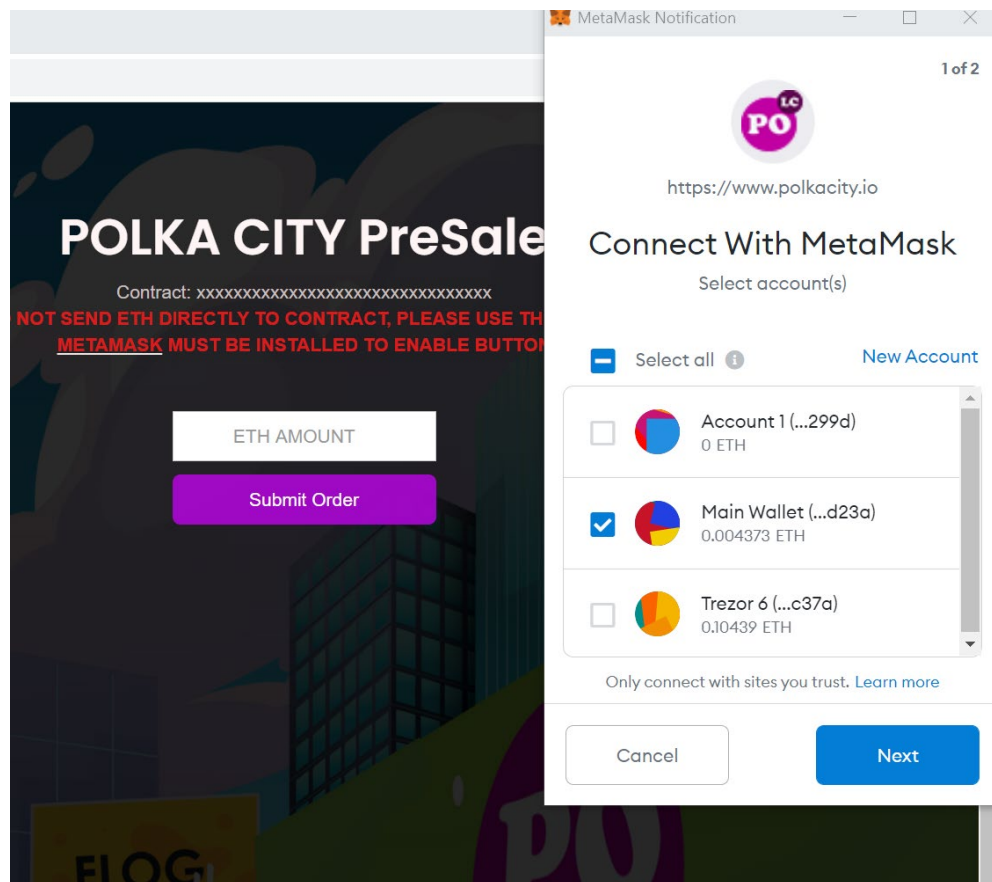

Welcome to the Polka City Pre-Sale. This guide will help you have a smooth purchase of POLC pre-sale tokens.

Token Sale

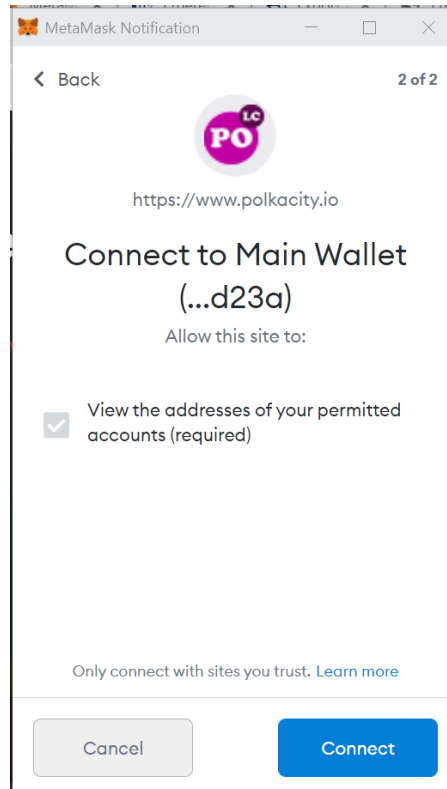

- There are 7.5M tokens available for the pre-sale. Any left-over tokens will be burned.
- Minimum Token purchase is of 0.05 ETH.
- Maximum Token purchase is of 7.5 ETH.
- Token Pre-Sale MaxCap is of 500 ETH.

Purchase requirements

1. Metamask MUST be installed for you to purchase POLCs. If installed, you will notice that Metamask will pop up and ask you to connect to the Polka City page. Please Select wallet and click Next. If you do not have Metamask install, please install from <https://metamask.io> and refresh the page.

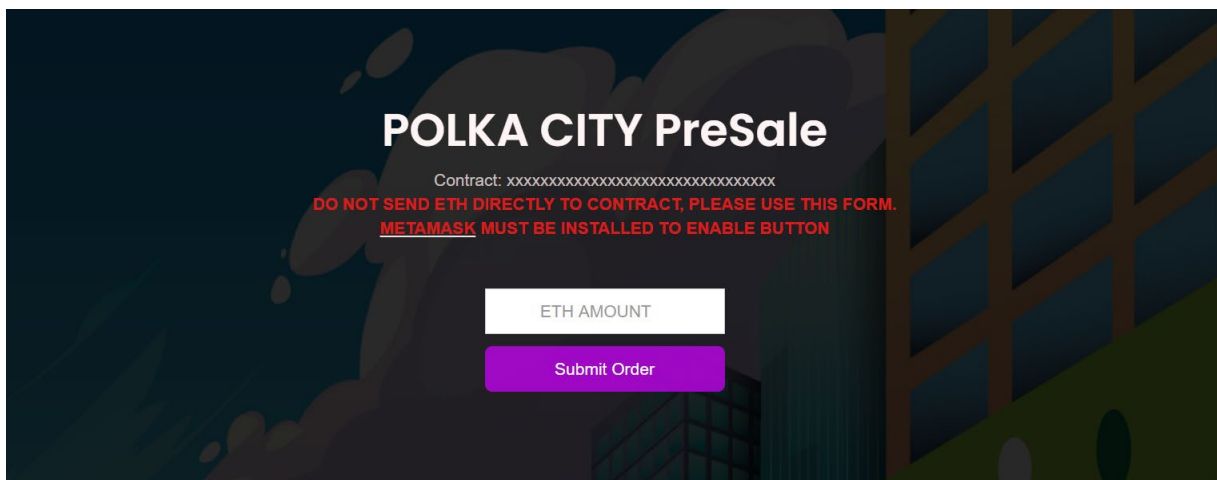

Connect Wallet Step 1

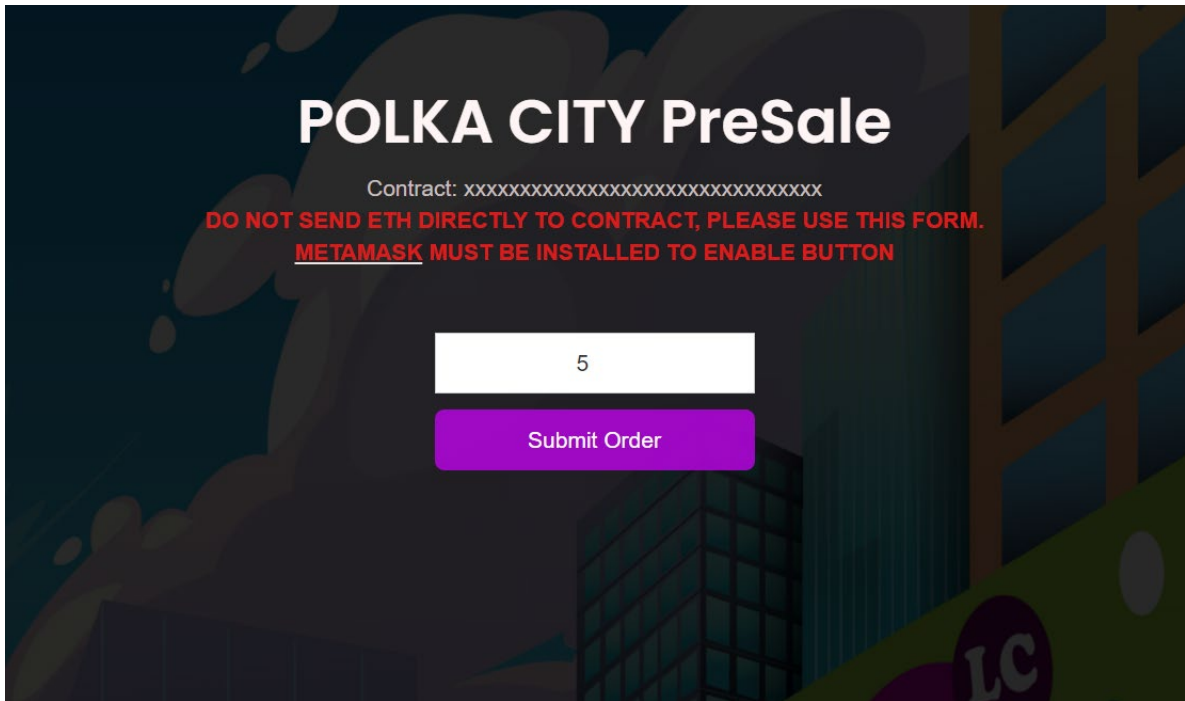

Connect Wallet Step 2

2. Once Metamask is installed go to the Token Sale DApp (Decentralized Applications) page. This link will be accessible from the Polka City home page top menu.

<https://polkacity.io>

3. Now that you have Metamask installed and connected to the page enter the amount of ETH to invest.

The screenshot shows a web interface for the 'POLKA CITY PreSale'. At the top, the title 'POLKA CITY PreSale' is displayed in large white letters. Below it, a contract address is shown as a series of 'x' characters. A red warning message states: 'DO NOT SEND ETH DIRECTLY TO CONTRACT, PLEASE USE THIS FORM. METAMASK MUST BE INSTALLED TO ENABLE BUTTON'. Below the warning is a white input field containing the number '5'. Underneath the input field is a purple button labeled 'Submit Order'. The background features a stylized illustration of a city at night with buildings and a hill in the foreground.

4. Once you enter the amount, click Submit order.
5. Metamask will open. Just click confirm. Make sure you just click confirm. Do not change GAS options. The DApp has been optimized for using the right GAS amount, any changes may result in rejecting transaction and losing GAS ETH.

Common questions and answers.

Question: Does it need to be Metamask.

Answer: Yes, it needs to be Metamask.

Question: Can it be any browser?

Answer: Technically, it can be any browser that supports Metamask, however, all our testing is done with Chrome. You are better off using Chrome.

Question: What is the contract address?

Answer: The contract address will be shown in the Token Sale page.
